

# 14 Critical milestones to include on your IFRS 16 implementation plan

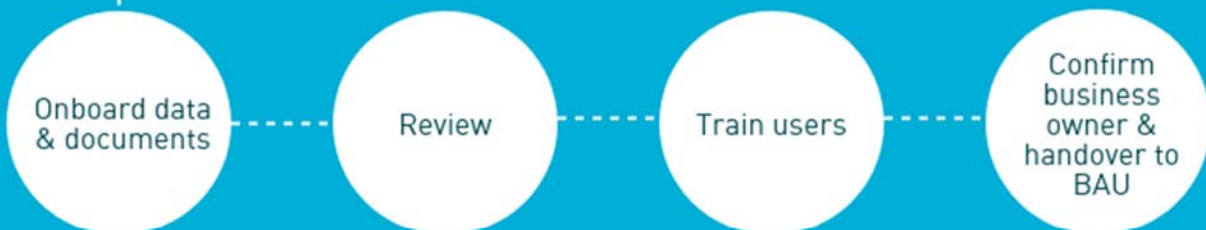

The IFRS 16 (AASB 16) Leases standard (effective from 1 January 2019) makes financial reporting more onerous and complex for lessees.

Implementation can be a minefield and there's far more to it than financial reporting.

Finding your leases is a huge job in-and-of-itself. You should already be well underway, if not finished, compiling your documentation, engaging with stakeholders and selecting software.

Other important milestones should be on the priority list to start as soon as possible.

When it comes to IFRS 16 (AASB 16) Nomos One has you completely covered. Check out the features of our IFRS 16 module or schedule a demo at [www.nomosone.com](http://www.nomosone.com)
